Why UEM?

Increased cyber threats & data breaches

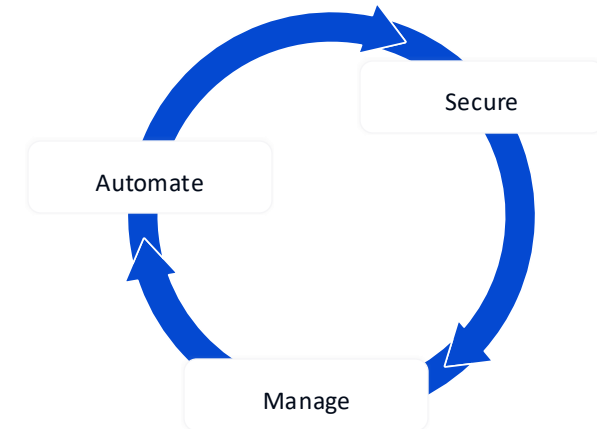

Growth of remote & hybrid work

Mandatory regulatory compliance

- Manage phones, tablets, laptops, PCs, smart TVs & smart watches, ruggedized & IoT devices – All from a single pane of glass
- Monitor, track, and secure endpoints and data
- One common platform-agnostic policy for all devices
- Distribute app and content

Our Mission

Address every aspect of endpoint and user security in the most detailed way & implement it with ease

Why ?

Enterprises require an all-encompassing platform to ensure complete security coverage.

Rapid technological advancements demand adaptable endpoint management.

The gap between mobile endpoints and IT must be bridged.

How ?

The alignment of user, device, and corporate data is systematically managed.

Endpoint management is made effortless.

Best security and control are provided under one console.

Hexnode UEM Features

A robust suite of solutions to address all your IT needs

Unified Endpoint Management

Manage any platform and any devices across various operating systems and diverse endpoints

Mobile Device Management

Monitor and control corporate-owned & BYOD endpoints to empower remote workforce

BYOD & COPE Management

Segregate work and personal data ensuring privacy & security for personal & corporate devices

Security & Threat Management

Enable 360-degree digital security to mitigate vulnerabilities & malpractices

Remote Monitoring and Management

Oversee and control devices from a centralized console to enhance efficiency and productivity

Kiosk & Device Lockdown

Transform devices into dedicated kiosks and digital signage for a secure and dedicated workspace

App & Content Management

Streamline app management and content accessibility through secure distribution

Identity and Access Management

Enable multi-level security and manage user activity to control access and avoid exposure

OS Updates and Patch Management

Secure systems with timely management of updates, bug fixes and security patches

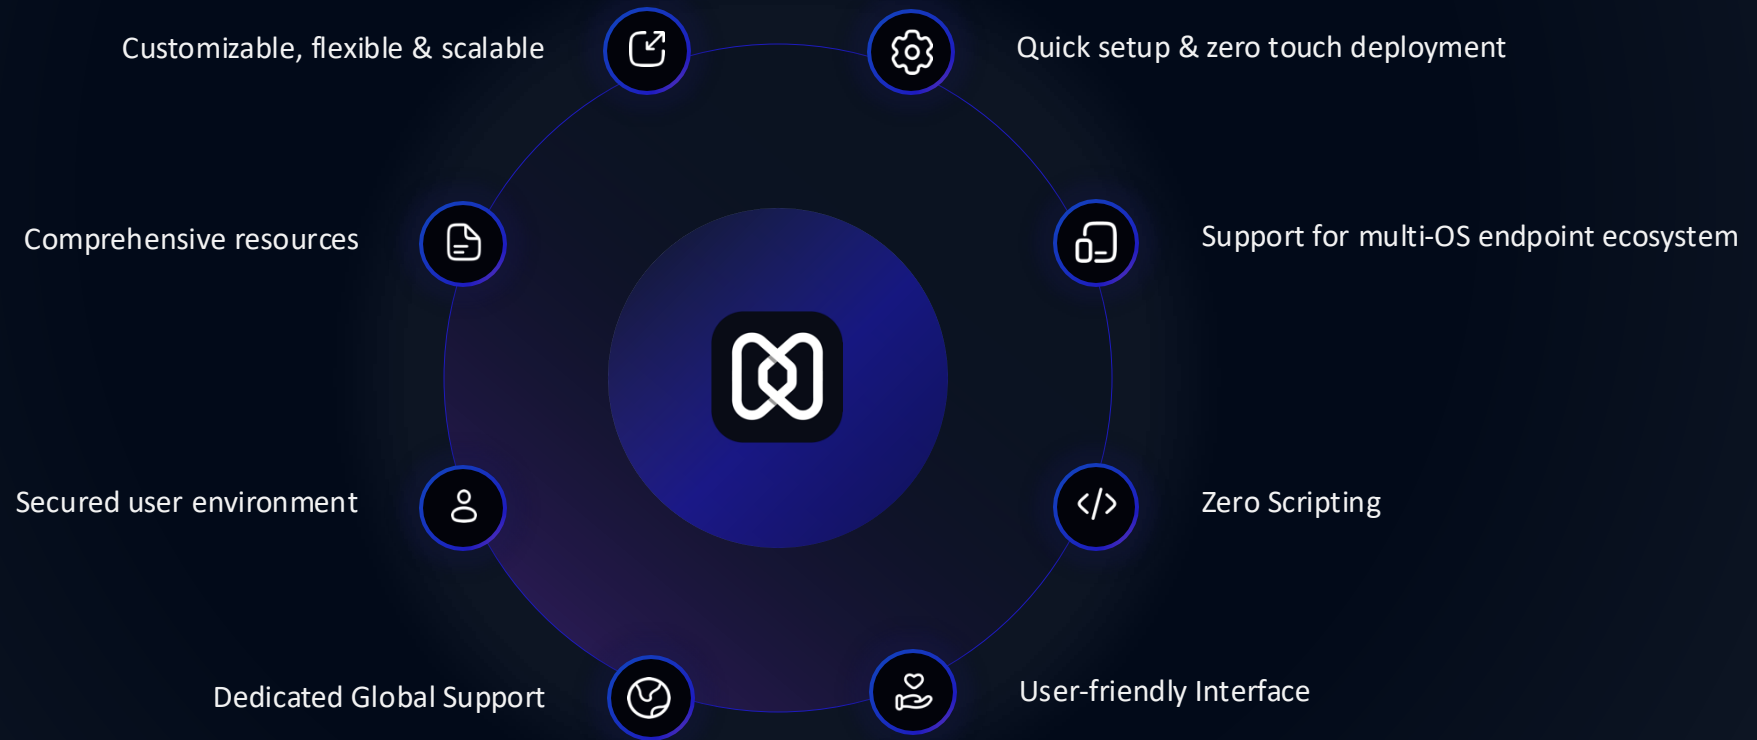

IT Asset Management

Monitor, manage, and maintain all IT assets to improve asset utilization & ensure compliance

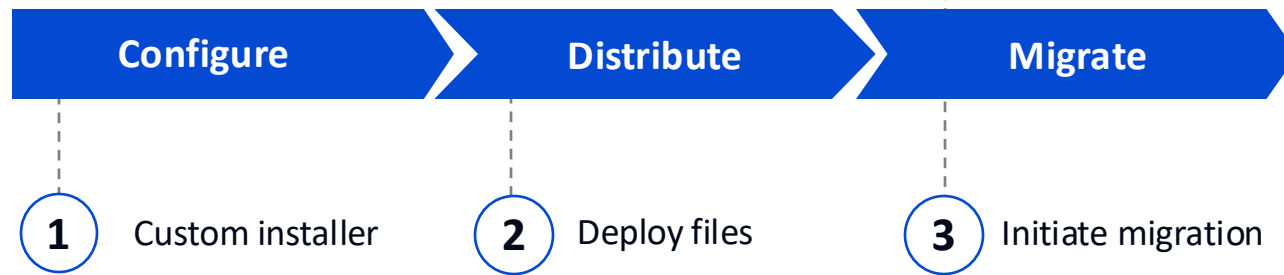

Why choose Hexnode...

Our amazing USP's

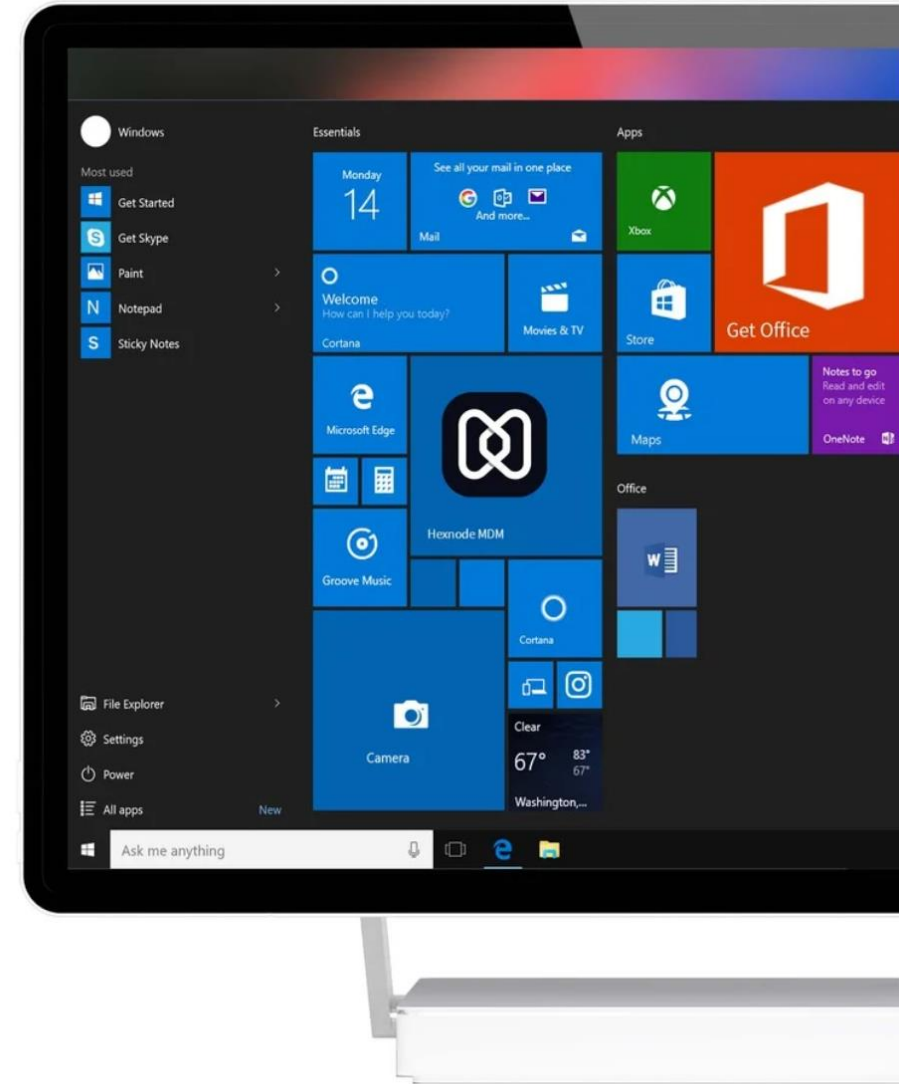

Hexnode Gateway

Remote Zero Touch Migration to Hexnode simplified in 3 simple steps

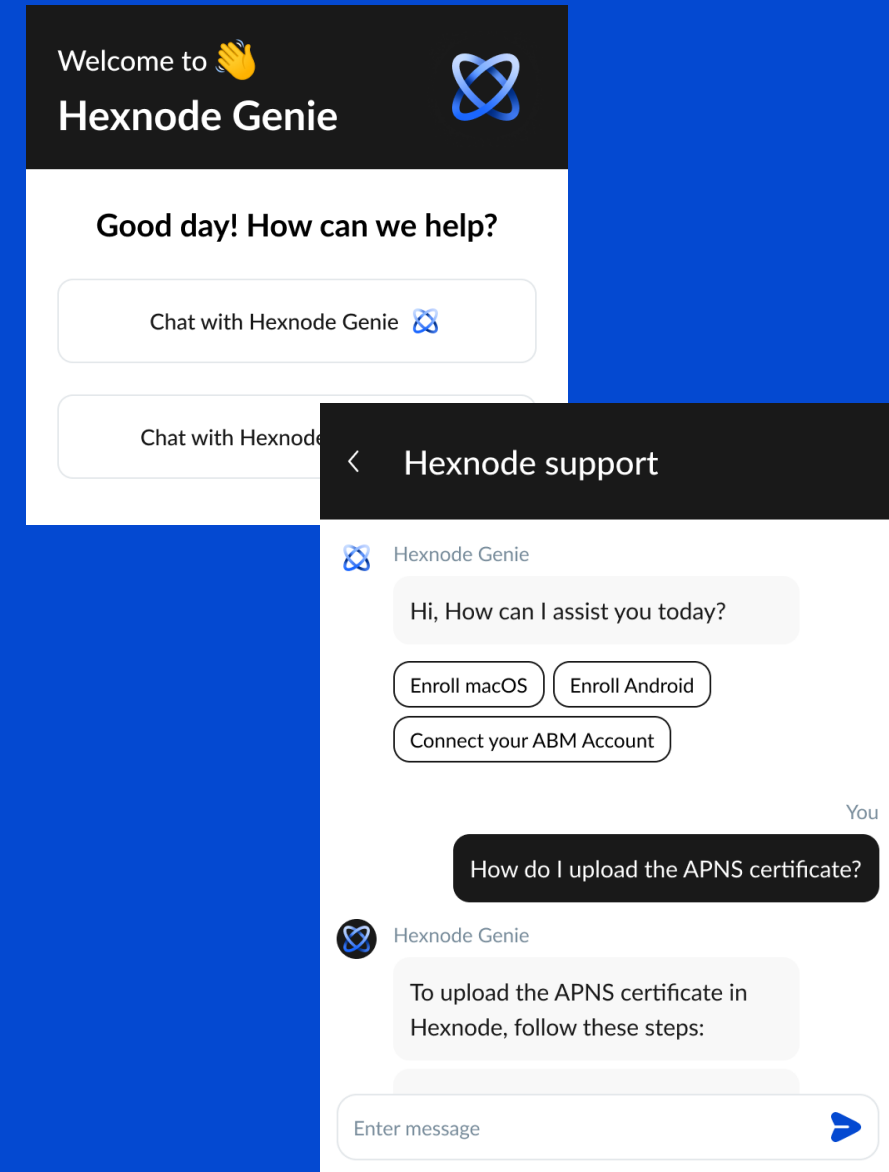

- Seamlessly migrate devices to Hexnode
- Streamlined process with mass deployments
- Significant time savings with quick and easy migration
- Maintain uninterrupted security with no downtime during migration

Hexnode Genie

Hexnode's AI-powered chat bot and script generator

- 🔄 24/7 operations for instant resolutions
- 🔄 Automated support combined with personalized human intervention
- 🔄 Improved Efficiency with automated script generation
- 🔄 Smarter scripting with limited coding knowledge

Enterprise Integrations and Technology Partnerships

Enterprise Integrations

Robust integrations with enterprise - grade solutions to enhance capabilities and expand functionality

Our Partners

Strong collaboration with industry-leading partners to foster innovation and drive success

Industry Use Cases

Education

Challenges

- Block inappropriate apps & websites
- Manage study materials
- Enable E-learning & online classes
- Track & manage student and teacher devices
- Deploy learning apps

Solutions by Hexnode

- ✓ Dynamic groups, automated & real-time device tracking
- ✓ Web content filtering and app whitelisting & blacklisting
- ✓ App management and silent app installation
- ✓ File management
- ✓ ASM, Shared iPads, and Apple Classroom

Hartley ISD

The product has performed as advertised. I think that the most important area that I have to deal with is the support. The tech help has been stellar. I have never had a negative experience with Hexnode. A++ rating.

Larry Franks

IT Admin at Hartley ISD

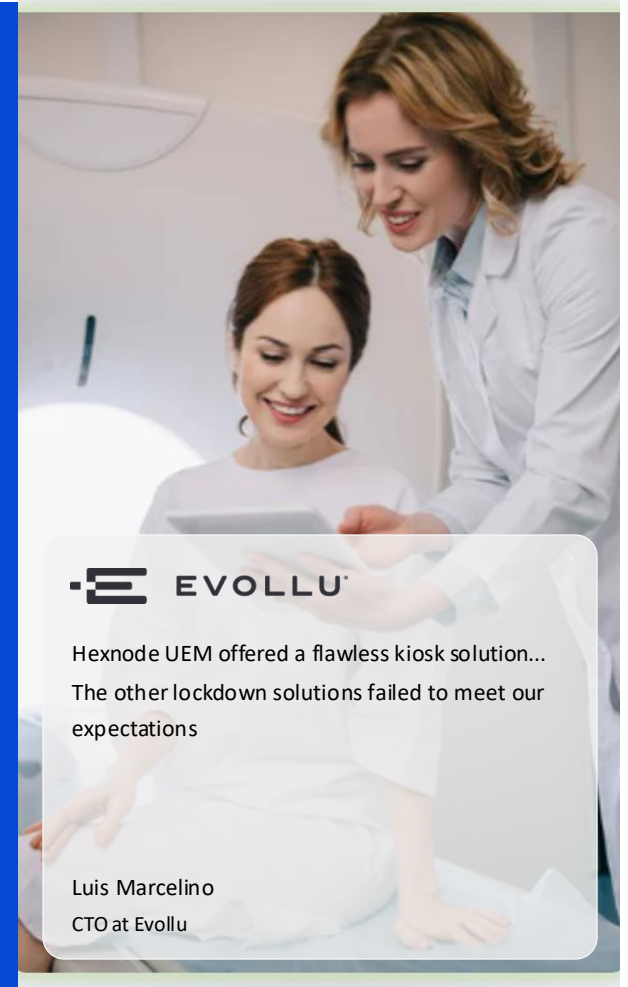

Healthcare

Challenges

- Hospital IT inventory
- Lockdown devices with healthcare apps
- Maintain HIPAA compliance
- Deploy Point of Care (POC) devices
- Patient engagement portal
- Virtual treatment

Solutions by Hexnode

- ✔ Manage all device types under a single console
- ✔ Single & multi app kiosk for healthcare apps
- ✔ Converts tablets into patient monitoring systems or POC devices using kiosk lockdown
- ✔ Security actions like device lock, wipe, lost mode, & containerization enable compliance management
- ✔ Remote access enables virtual consultation & treatment

EVOLLU

Hexnode UEM offered a flawless kiosk solution...
The other lockdown solutions failed to meet our expectations

Luis Marcelino
CTO at Evollu

Banking and Financial Services

Challenges

- Financial data protection
- Reduce the risk of fraud
- Ensure compliance
- Reduce downtime due to device level errors
- Finance-ready self-service

Solutions by Hexnode

- ✓ IAM for right access to sensitive information
- ✓ Actions like remote wipe, lock, lost mode, device scan enable crisis control
- ✓ Seamless access to banking applications through App management
- ✓ Kiosk mode enables POS and self-service solutions for account opening
- ✓ Remote control enables remote device troubleshooting

Your product allowed me to do it all, a big thing for me was, I could set this up and work your product without talking to a human.

Ernest Vannorsdell
Senior Information Technology Manager at CTI

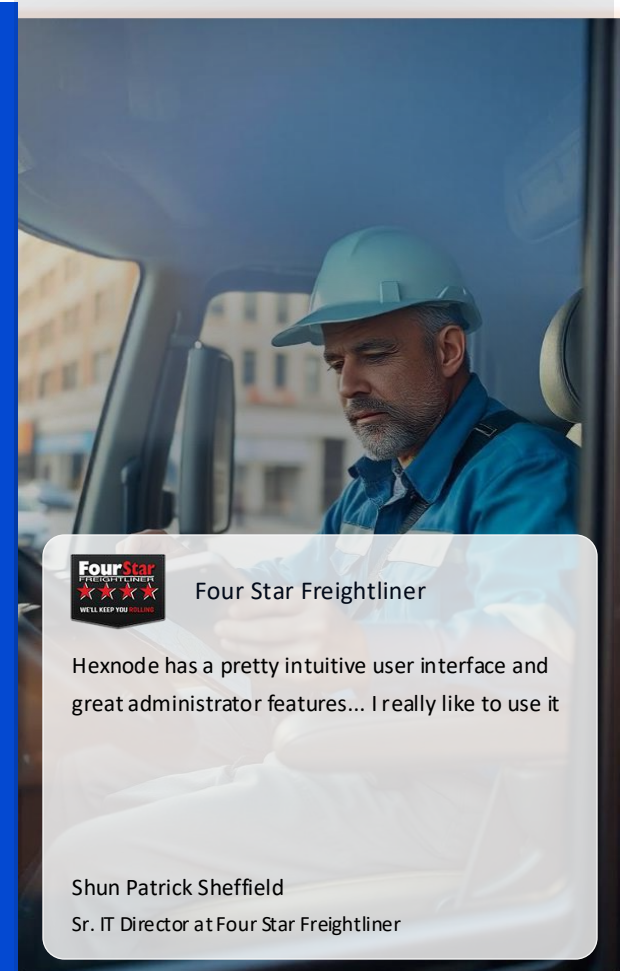

Transportation & Logistics

Challenges

- Track employee location
- Push location-based policies
- Identify non-compliant devices
- Deploying and managing ELDs

Solutions by Hexnode

- ✓ Location tracking, location history, & on-demand location scan
- ✓ Geofencing to push location-based policies
- ✓ Remote device lockdown
- ✓ Option to run app in foreground, disable hardware buttons, remote troubleshooting and kiosk lockdown to manage Electronic Logging Devices (ELDs)

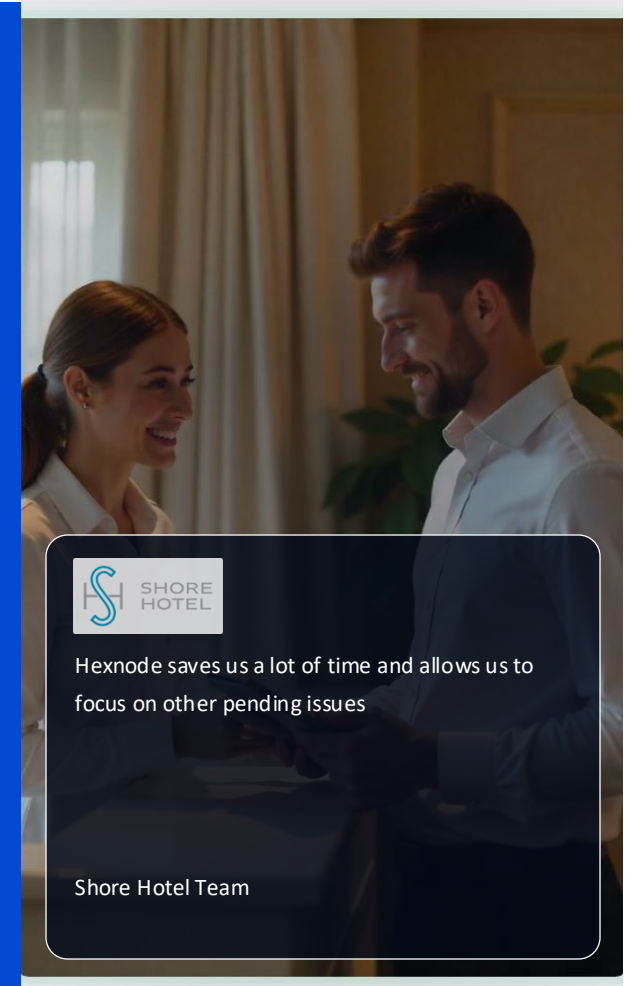

Hospitality & Restaurants

Challenges

- Seamless check-in & check-out experience
- Display Ads
- Handle in-room services
- Real-time technical assistance
- Self-ordering

Solutions by Hexnode

- ✓ Multi-app kiosk mode in-room services
- ✓ Mobile POS devices for customer check-ins and check-outs
- ✓ Remote control to handle technical issues
- ✓ Single app kiosk for self-ordering devices
- ✓ Lockdown mobile devices into digital signages
- ✓ Content management

Enterprise

Challenges

- Work and BYOD management
- Patch and update OS
- Configuring devices in bulk
- Troubleshoot issues
- Prevent data leaks, cyber threats and insider attacks

Solutions by Hexnode

- ✓ Android Enterprise Recommended, and iOS Managed open-in support
- ✓ Automated patch management and OS update management
- ✓ Zero touch and bulk device enrollment & management
- ✓ Push scripts remotely
- ✓ USB and peripheral device restrictions and other DLP features

Hexnode UEM has helped us save a lot of time by eliminating the need for managing the devices manually

Malik Kusters
Founder and Managing Partner at Trainspot
